Education

University of Rwanda | Kigali, Rwanda *Bachelor of Information Technology* | Expected Graduation: 2027

Experience

Freelance Software Developer | Ingoga Technologies | 10/2025 – 12/2025

- Engineered "Ubuzima Digital System (UDS)," a real-time queue management solution for hospitals with webSockets to handle instant updates on screens.

Software Developer Intern | Zaantu Ltd (Remote) | Feb 2025 – Aug 2025

- Developed features for "Appo-inventory-manager," a cross-platform business inventory application, ensuring consistent performance across iOS and Android.

Ingazi Ambassador | Ministry of Youth and Art | 8/2025-Present

- Coordinated youth outreach programs and managed participant data collection to facilitate connection to employment opportunities.

Projects

SaaS Portfolio Builder(Portfy) | *Full-Stack Developer (Django, React.js)*

- Engineered a full-stack Software-as-a-Service (SaaS) platform enabling users to generate dynamic portfolio websites through simple data entry forms.

Ride-Sharing Platform (Safeboda) | *Full-Stack Developer (.NET Core, Blazor)*

- Developed a two-sided marketplace application connecting riders with drivers, implementing complex backend logic for booking requests and driver matching using .NET Core.
- Built a seamless, single-page application (SPA) frontend interface for both rider and driver portals using Blazor, leveraging C# for client-side logic.

Certificates & Awards

- **Intensive Software Engineering Training Program** | THE GYM Rwanda
- **2nd Place Winner** | Hello Tractor E-commerce Hackathon
- **Certificate in Web Development**
- **English Proficiency Certificate** | RDB / EF Education
